WORK EXPERIENCE

New Hope Ministries International (See https://newhopemontebello.org/) **Los Angeles, CA**
Developer *October*
- Built the core pages of a Wordpress site for a local church organization.
- Integrated a third party plug-in to enable clients to create, update, and delete events, allowing the organization to independently advertise their social gatherings.
- Worked with the tech lead to deploy the website in an EC2 instance in AWS, along with domain name configurations with Route53.
- Facilitated scrum meetings and practiced agile ideologies to ensure timely delivery of the project.

United Parcel Service **Los Angeles, CA**
Safety Associate, Package Handler *current*
- Designed and maintained safety guidelines to ensure consistent work productivity and ensured compliance with industry regulations.

PROJECTS

Memory Game (See https://3100ashley.github.io/memory-game/) *February*
Developer
- Developed a matching card memory game using HTML, CSS, and Javascript.
- Collaborated with a teammate regularly and debugged issues using Chrome Dev-Tools.
- Built a wire frame to help maximize user potential and pseudo coded the logic of the game to create an efficient application.

Body Mass Index Calculator *current*
Developer
- Constructed an interactive website to calculate body mass index using HTML, CSS, Javascript, and EJS.
- Built a Node backend application to perform calculations and serve data to the UI with room to expand.

EDUCATION and CERTIFICATIONS

Benjamin Franklin High School - Technical Program	*2016*
Udemy's The Complete 2021 Web Development Bootcamp	*current*
Hack The Hood Fall 2021 Tech Foundations Scholar	*current*
